Daily British Colonist.

SUNDAY MORNING, OCT'R. 26TH, 1873.

L. P. FISHER, 20 and 21 New Merchants' Exchange, is our authorized Agent in San Francisco.

The Beef Supply.

Having in former articles adverted to the fatal drain upon the realized wealth of British Columbia, consequent upon the consumption of foreign beef, and having stated that the country already possesses the capacity for supplying its population, proper facilities for reaching the principal markets alone being wanting, some statistical information respecting the more available stock-ranges and the natural facilities for connecting them with the seaboard may not prove altogether uninteresting. To the reflecting mind this question of domestic supply will appear to be one of very great importance. The unthinking care but little where their beef comes from, so long as it is cheap and good; but the merest tyro in political economy must readily realize the importance to British Columbia of this question of self-supply, —involving, in the article of beef alone, something over one hundred and fifty thousand dollars a year. It will readily be admitted that the question "How shall this large sum be retained in the country for the development of our own resources and the enrichment of the people?" is one demanding the most earnest consideration of those entrusted with the management of affairs; and it seems not too much to say that it would be a serious dereliction of duty were the Legislature to pass another session without adopting very decided and energetic measures for providing a remedy. But to the promised statistics. The figures we are about to give do not lay claim to absolute accuracy. They should rather be regarded as merely approximate; but, at the same time, we have been careful to keep within the limit of facts, preferring rather to be found under than over the mark:

Quesnel Mouth	410
William's Lake	525
Chimney Creek	1310
Soda Creek, etc	1070
Alkali Lake	3050
Big Bar, down Fraser	2900
Lake LaHache	3250
Pavillion	1400
Bonaparte, Clinton	1965
Cashe Creek	2050
Savana Copper Creek, etc	2675
Tranquille (Thompson)	1025
North Forks	625
Kamloops and South Forks	4120
Okanagan	3700
Semilkameen	3110
Nicola Lake	2394
Kootenay	1500

Here we have a total of 36,244 head,—a very low estimate, we imagine, of the beef cattle at present to be found beyond the Cascades, and left without reasonable means of reaching the markets. It may be recollected that, in a previous article, Soda Creek was indicated as constituting a sort of natural boundary, dividing the country into northern and southern, the stock of the former presumably seeking the seaboard by way of Lillooet and Howe Sound or Burrard Inlet, and the latter requiring an outlet through the Valley of the Lower Fraser to New Westminster. The reader, if in the least familiar with the geography of the country beyond the Cascade Range, will perceive that this boundary would throw a preponderance of stock into the division requiring the latter outlet. It will further be observed that much of the stock is so far south as to place its movement to the seaboard, *via* Lillooet and Howe Sound, practically out of the question. If, therefore, we would extend to our own stock-farmers such reasonable facilities as would enable them to supply the markets, shut out foreign beef and thus stop the fatal drain upon the country's wealth, the opening of a second or southerly avenue becomes a *sine qua non*. This brings us face to face with the question of constructing a trail or road by which stock may be conveniently driven from beyond the Cascades to New Westminster. In so far as that portion of the country lying above the head of navigation on the Lower Fraser is concerned, the enterprise of Mr. Moore, of Nicola Valley, who brought a band of cattle through quite recently, sheds some light on it, which may be of use to us. Mr. Moore used what is commonly known as Dewdney's Trail, and which reaches Hope *via* Princeton, in 124 miles from Nicola Valley. Some 36 miles of this trail requires blasting and presents little or no feed for animals. With that exception, both trail and feed are good, and by it stock as far south as Semilkameen would probably find the most direct route. It may not be generally known that last year Mr. Dewdney, in connection with the Canadian Pacific Survey, opened a trail in a direct line from Hope to Nicola Lake, bringing these two points within eighty miles of each other. On this trail there is a section some seventeen miles in length requiring blasting in order to make it really good, and which presents little food for animals. Along all the rest of the route there is abundance of feeding ground and a good supply of water at convenient distances. It will be observed that by this route the distance is greatly reduced, the very heart of the great Northern stock range is pierced, and the chief obstacle to cattle droving, the Yale-Lytton road, is avoided. It will readily occur to the reader's reflection, that a road opened over this route would answer more purposes than cattle droving. Once Hope is reached, it will hardly be necessary to say, all difficulty is past, —that is to say, there are no great physical obstacles to be overcome. From that point to New Westminster abundant feeding-ground is found all the way; and it only needs the opening of a trail (sections already exist) and the construction of a number of short and inexpensive bridges in order to admit of stock being driven the whole way without loss of weight or deterioration in condition. We observe a New Westminster contemporary advocates the construction of a good travelable road over this section, not only for the purpose of enabling stock to be driven down, but as an indispensable link in land communication, connecting the seaboard with the interior. Without attempting to enter upon this wider phase of the subject in the present article, we hasten to express our hearty concurrence in a measure which has long been advocated by the present writer. Says one, "No doubt it would be very nice and very desirable in an economic point of view to have our markets supplied from our own grass ranges; but, then, it would cost a great deal of money to accomplish what you propose?" It would cost considerable; but what is it costing the country every year to supply its markets with an inferior foreign article? Let the objector ponder well that question, and then say if the ten, twenty, or even thirty thousand dollars necessary to stop the fatal leak would not be well and wisely expended.

THE EUREKA RANGER.

I some rustic path was treading,
When the sun his rays was shedding—
Beaming, gleaming, fairly streaming thro' the trees;
And I watched the streamlet glistening,
As, entranced, I lingered listening
To the melting, merry music on the breeze;

When, beneath an oak reclining,
Where no ray of light was shining,
Lo, I saw a fellow-being on the ground.
Though no other feature shifted,
Quickly he his eyes uplifted—
Upward lifted, as he wildly gazed around.

"Recumbent friend," said I, approaching,
"Do not charge me with encroaching,
Is it illness makes you seek that posture strange?"
But no other words he uttered,
And no other sentence muttered,
Save—"There's nothing in this country like the EUREKA COOKING RANGE."

"That's an odd expression, surely,"
Said I, looking down demurely,
"I fear some foul affliction doth your intellect derange."
But he only cried the prouder,
As he spoke these words the louder,
"There's always true convenience in the EUREKA COOKING RANGE."

"Why, bless me, man," I shouted,
As his sanity I doubted,
"I come, cease this repetition, and this prosy subject change."
But he only cried the higher,
With enthusiastic fire,
"You'll save your cash by purchasing a EUREKA KITCHEN RANGE!"

So I left him there reclining,
Where no ray of light was shining,
And frequent since I've pondered o'er his iteration strange,
Long I sought to solve the mystery;
Half I feared some hidden history
Slow was weaving, round me in connection with this RANGE.

So I straight resolved to buy it;
Nay, I felt compelled to try it,
And applying to the vender,
Proffered honest legal tender
Of paper and of specie (the new issue) in exchange;
And behold, I've cause for gladness,
For the words I deemed were madness,
Induced me thus to purchase this matchless kitchen RANGE.

OPENING OF PARLIAMENT!

Speech from the Throne!

OTTAWA, Ont., Oct. 23.

The Governor-General opened the second session of the Dominion Parliament in due form to-day.

In a speech he said he had caused Parliament to be summoned at the earliest possible moment after the receipt of the report of the Commission appointed to enquire into the Canada Pacific Railway matters. The evidence obtained would be laid before them and deserved careful consideration. The Canada Pacific Company, he said, having been unable to make financial errangements necessary for the construction of the road, had executed a surrender of their charter, which had been accepted by him.

The Royal Commission, in their report, decline to avail themselves of the permission given them to express any opinion on the evidence regarding the Pacific Railroad Scandal.

Robbery of two Baltimore Churches.

BALTIMORE, Oct. 11.—St. Luke's and St. Paul's Episcopal Churches were both robbed last night. In St. Luke's the silver plate was carried off, and the charity boxes were broken open. The robbers also broke to pieces a chalice, set with diamonds and rubies, valued at $3,000, carrying off the jewels and leaving the metal behind. The other silver and gold sacred vessels were not disturbed. The handsome stained glass window, with a representation of the Virgin Mary was broken by the robbers when they were getting into the Church. St. Paul's Church was also robbed; loss $1,000.

BABCOCK'S FIRE EXTINGUISHER.—Mr. J. R. Dwyer, agent for this famous apparatus, came by the Prince Alfred and has taken rooms at the Colonial Hotel. Mr. Dwyer brings one of the fire extinguishers with him, and has secured permission from the Mayor to put it to a practical test in the open lot on Government street, beyond Herald, on Monday evening at 7½ o'clock. He will set fire to barrels, saturated with coal oil and filled with shavings, and after the whole mass is a-blaze, will extinguish it in an almost incredible short space of time. Every American steamer is compelled to carry at least two of these machines, and in every establishment wherein Babcock's Extinguishers are kept a reduction is made in the rate of insurance. The test will be worth witnessing. The public are invited to be present.

CUSTOMS APPOINTMENT.—J. E. McMillan, Esq., editor-in-chief of the *Standard*, has received the appointment of Chief Clerk of the Customs Department and will shortly assume the duties of the position. Mr. McMillan is an early pioneer of the Province and has been with us through all the ups and downs the country has experienced. He is a political writer whose views we have often felt it our duty to combat and severely comment upon; but he is an excellent fellow at heart and a firstrate citizen. The appointment is an excellent one, and we congratulate our *confrere* on his happy release from editorial cares.

SANDWICH ISLANDS.—We have news to Sept. 24th. The King had recovered from his illness and was at his palace residence in Honolulu....The Household Troops, consisting of 54 privates, not including the band, rose in mutiny on the 7th of September, and by royal order of Lunolilo R. have been disbanded..... A letter from Hilo states that there is no cessation in the action of the summit crater. Kilaeua was never more beautiful than now. The lava streams blowing out of the old South Lake continue unceasing. Severe eruptions are anticipated.

THE steamer Maude, Capt. Holmes, arrived from New Westminster at 5¼ o'clock afternoon with the following passengers: Mrs. Baughman, Mrs. Brown, Mrs. Potter, Miss Thomas, Judge Begbie, J. Ellard, W. Green, A. R. Green, Messrs. Perry, Gray, Francis, Heath, Barker, Parker, McNeill, Strachan, Pulson, Osborne and Neil.

A SAUCY CHINAMAN. — Ah Sam, the mooneyed cook who kicked up a disturbance at the Municipal Police Court and afterwards assaulted officer Beecher, was yesterday fined $10 and costs by Mr. Elliott. Ah Sam is quite an orator and made an eloquent speech in his own defence; but, unfortunately, (like our Local Government), the facts were against him, and he had to pay.

THE ROBBERY CASE.—After hearing two respectable witnesses who testified to the previous good character of Thomas H. Farrell, the Police Magistrate yesterday committed the prisoner for trial at the next Assizes. The bail is fixed at $200.

H.M.S. REINDEER goes to sea on Tuesday next. She is ordered to Panama, to bring up supernumeries for the Repulse and will return in February.

Mournful Relics.

The New Westminster *Herald* gives the following account of the finding of human remains by the Jarvis surveying party:

"On the head waters of the Bonaparte a spot removed from any trail, were found the bones of what had once been a human being. The remnants of a pair of gum boots, the blade of a sheath knife, and a rusty prospecting pan, which were the only articles discovered near after a vigilant search, left no doubt that the skeleton was that of some hardy prospector who had there laid himself down to die; while the position of the finger-bones ---driven into the earth---spoke with mute eloquence of the last convulsions that had racked the poor, famine-slain body. Near the remains was a pile of firewood, ready to be kindled, and some of the trees near bore marks as if the bark had been stripped and gnawed. On the Sunday after the discovery the whole camp turned out, collected the remains and buried them, erecting a cross over the grave. No sign of writing could be discovered, either on the prospecting pan or on the trees near by. It is thought from the appearance of the remains that many years---probably ten---have elapsed since the poor fellow breathed his last."

Theatre Royal.

Last night the Rosedale Dramatic Company played to a very good house. Boucicault's dramatic gem "The Colleen Bawn," was put on the stage with very good success, particularly the lake scene. Mr. and Mrs. Fulford's personation, respectively, of "Nyles" and "The Colleen Bawn" are really excellent. The brogue they give is as good as the witticisms. Miss Annie Pixley acts her part of "Annie Shute" with great ease. The little old woman, Shelah Mann, is personified by the promising young actress, Miss Lucy Pixley. R. White impersonated the "Priest" very cleverly, and, indeed, makes a capital father. Nor should we overlook his other part of "Bertie O'Moore," which was equally well acted. Messrs. Caine, Clinton and Wilton act their parts with great life and spirit.

The Interlude was entertaining, replete with comic songs, ballads and dancing by the two sisters. Kate O'Brien, the concluding farce, was very cleverly acted, and was thoroughly enjoyable. Altogether we found the night pass away very plersently and the public were thoroughly satisfied....On Monday evening a distinguished amatuer has consented to take a part in the "Rough Diamond."

THE mail steamer Prince Alfred arrvived at 12 o'clock yesterday from San Francisco, bringing a large number of passengers and a good freight. The first three days of the passage were attended with severe gales from the north; but the passage was finally accomplished without incident or accident. We are indebted to Purser Donzell for late papers. The passenger list appeared on Thursday.

ANOTHER EXTENSIVE SALE. — At Oakland Farm (A. LeClair's) to-morrow, commencing at 12, noon, will be held by Mr. Humphreys an important sale of well-bred milch cows, farm and dairy implements, wagons, furniture, books, etc., etc. The stock is among the best ever offered in this Province, as those who have used the milk and butter served out by M. LeClaire can testify.

THE FIRST—THE LAST—THE BEST.—The London House received by the Prince Alfred, yesterday, a large shipment of winter goods, direct from the European manufacturers by rail and steamer. They are the first new winter goods in this market, They are the last styles and fashions. They are the best in material and make. It will be quite unnecessary to advise the ladies to go and see the beautiful goods. *

TEMPERANCE CELEBRATION.—We would remind our local readers of the entertainment to be given at the Alhambra Hall, to-morrow evening, consisting of songs, speeches, etc. Some excellent speeches may be expected, and this will be the last opportunity of hearing the able lecturer Mr. Leland. Those who go will be sure to spend a pleasant evening.

JARVIS SURVEY.—The C. P. R. Survey party under Mr. Jarvis have completed the survey from Lillooet to a point 170 miles distant, on the Thompson River. Mr. Jarvis himself has just gone on a flying expedition from Bridge Creek to Clearwater, the party having been paid off.

GANSBY'S SURVEY.—The C. P. R. survey party under Mr. Gansby reached Lillooet on the 18th, having completed the survey from Howe Sound to that point. The members of the party were all in good health, and we understand Mr. Gansby has attained highly satisfactory results.

THE new steamer Empire City recently launched from J. A. Meiggs' shipyard at Port Madison was towed to Seattle yesterday by the tug Politkofsky. She will be rigged as a schooner and take on a cargo of lumber for San Francisco, where her machinery will be fitted. She will then run between Coos Bay and San Francisco.

LONDON BAZAAR.—Mr. W. Jones returned yesterday, after an absence of seven months, which he has passed in the principal markets of the Old World. He has a full stock of new and beautiful goods on the way, which will be in store before the holidays.

SEASONABLE AND GOOD.—Joseph Heywood's pork sausages, pure and unadulterated, appeared yesterday for the first time this season. The sale will be continued until further notice.

THE Japanese Bazaar closed yesterday for a brief period to enable the proprietor to restock his premises with holiday goods. *

H.M.S. REPULSE.—It is now said that this fine ship will winter on this station.

CONTROLLER GREEN, of New York City, has recently startled the taxpayers of that city and county with a statement that, financially, the city affairs are getting worse and worse. He shows that last year the receipts were $32,250,000, a very large return. But large as these figures may be, the expenditure far exceeds them, being $52,300,000. The Controller shows that in the brief period of 12 months the indebtedness of the city of New York has been increased just $20,000,000. And Tweed is not in office, either.

WELCOME.—Mr. H. L. Jones and bride were warmly welcomed by their friends yesterday.

THE annual meeting of the Mechanics' Institute will be held on Tuesday, the 4th proximo.

SALVAGE.—The salvage sale of crockery at J. P. Davies & Co.'s, yesterday, realized good prices.

THE Prince Alfred will sail for San Francisco at 10 o'clock to-morrow.

Sooke Road.

EDITOR COLONIST:—I see by other letters which have appeared in your paper that some one has been writing in the *Standard*, calling himself "Justice;" and he describes my letter which appeared in your issue of the 15th inst. as "bogus" and "slanderous;" but what I said was undeniable.

With regard to the suggestion about the road being improved year after year, I will just relate a conversation which took place between a very reliable party and the contractor:—

Reliable Party.—"You'll not make much on this job; that is to say, if you make a good road."

Contractor.—"Well, we don't expect to; but the road will want improvements every year, and then we will make something."

Reliable Party.—"Yes, but how do you know that you will get it every year?"

Contractor.—"Oh, that's all right."

Now, Mr. Editor, it appears to me that "There's something rotten in the State of Denmark." SETTLER.

SOOKE, OCT. 23, 1873.

Nanaimo School.

EDITOR COLONIST:—I wish to correct an item which appeared in your journal last week, conveying an erroneous impression with regard to the furnishing of the Nanaimo school-house. A grant of $250—all the Trustees considered necessary for the purpose—was made early in August last, and that amount was paid to Mr Mayer, one of the Trustees, on the 26th of that month. JOHN JESSOP.

English Mail.

[Dates to the 20th Sep't.]

The *Daily Telegraph* has had a series of reports, prepared by its correspondents in the principal coal-producing districts of the United Kingdom, on the present weekly out-put of coal, the present and probable coming rate of wages, cost at pit mouth, rate of freight, state of iron trade in the district, and demand for coal arising therefrom. Our contemporary prints no less then twenty-six returns which it has received; and comes, from the analysis,—somewhat hastily, we think —to the conclusion that "before the end of our first week of severe frost household coal may touch a figure for which parallels must be sought during the most trying years of the Peninsular war."

A newsagent named Cockle, who was to be examined on behalf of the defendant in the Tichborne trial, has committed suicide at Surbiton, where he was on business. In the middle of the night he left his house and wandered on to the South-Western line and a train ran over him.

Mr. Richard Charles Monro, of the Midland Railway Coal Depot, St. Pancras, was summoned on Tuesday before the Lord Mayor at the Mansion House for selling coals deficient in weight, and it being proved that out of sixteen sacks which were weighed, fifteen were each deficient, he was fined £2 each sack, or £30 in all, besides the complainant's costs.

The *Japan Gazette* states that in Yeddo, a doctor named Coto Shobun, of Aichi Ken, has opened a leper hospital in Narnko machi. He is said to have discovered a specific method of treating this disease, and that Dr. Banduin was so satisfied of its value that he introduced it into Holland.

The inquest on the body of the woman found in the Thames was resumed on Monday, when the jury found a verdict of "Wilful murder" by a person or persons unknown.

The King of the Belgians visited Glasgow on Saturday, and received a cordial welcome. He was enthusiastically received by the merchants at the Royal Exchange. After visiting various places of interest he returned to Edinburgh in the evening.

The *Graphic*, in an article on present fashions, says:—"As to bonnets and hats, some of our readers will hear with surprise that specimens are shown at the Vienna Exhibition made of glass! The time is probably at hand when our bonnets and windows may be cleaned at the same time. A contemporary states that 'the hat is made of loose pieces of glass, fastened closely together by a guttapercha band, which allows it to conform to the head. Inside there is a lining of silk and the trimmings are various, being for the most part birds and flowers. A bonnet made of glass weighs but a few ounces, is very durable, because rain cannot spot it, and the cost thereof is small."

Dominion Mail Summary.

OTTAWA, Oct. 10.—Lieu.-Col. French, of Kingston, will probably receive the appointment of Superintendent of the Mounted Police in the North-west, *vice* Osborne Smith, resigned.

The prizes won by the Governor-General's Foot Guards at the late shooting match were distributed last evening by Lt.-Col. Fletcher, Military Secretary.

The attendance at the races yesterday was very small. The course was in splendid condition and weather admirable. They will be continued to-day and to-morrow.

HALIFAX, Oct. 10.—There is considerable activity in the Pictou coal mines. All the companies are shipping extensively; coal is advancing in price. The Vale Coal, Iron and Manufacturing Company's Railway, it is expected, will be opened before the close of navigation this fall.

Canada.

MONTREAL, Oct. 17.—A pamphlet entitled "Pacific Scandal in the Custom House at Montreal," appeared upon the streets to-day, and finds ready sale. It contains the most damaging charges against the Custom House officer, Delisale, and Appraiser Villeunve, accusing them of systematically defrauding importers, levying blackmail upon their employees and other officers. Delisle is also President of the Harbor Commission.

Eastern States.

NEW YORK, October 19th.—At the conference of Spiritualists held here to-day, Judge Edmonds, Professor Brewster, formerly of Yale College, were present. D. White spoke in favor of Woodhullism and Dr. Helleck opposed, and denounced her doctrines in strong terms, and said a bombshell had been preparing and would shortly burst among the Free Lovers. From the general tenor of to-day's proceedings, a split appears imminent between the Free Lovers and Spiritualists. The late Evangelical Alliance was severely denounced. It is being said of it that instead of its being a Christian alliance it was a Christian damnation, etc.

An Ithaca, New York, despatch says the Coroner's jury made examination into the cause of the death of M. D. Legett, son of L. Y. Legett, Commissioner of Patents, Thursday evening. The testimony showed that in process of preliminary initiation into the Cape Alpha Society the deceased was blindfolded, when he, Lee and Wasson, who were leading him, fell off the cliff. The verdict was accidental death.

NEW YORK, Oct. 16th.—The Woman's Suffrage Association met to-day. The question of Motherhood was discussed at length. It was contended by Mrs. E. Cady Stanton that there were too many children in the world, and that it wasn't right for every married couple to have children.

GLADSTONE'S HEALTH RESTORED.—Mr. Gladstone's health, which had suffered from overwork and worry, is reported entirely restored. I have seen it stated—and whether true or not is exactly like him—that the very day he took office as Chancellor of the Exchequer he sent for the chiefs of the various departments of the Treasury, inquired into the financial condition of each department of the state of the revenue, and took up the burden of that vast business as easily as if he had had nothing to do for six months before but attend to his health. Be his other tasks what they may, it is certain he has no idea of being a dummy in the Exchequer. Whether he means to abolish the income tax is a subject of much anxious inquiry among the Tories just now. As usual, they are indignant that Mr. Gladstone should anticipate them, though nobody on that side ever lisped such a notion, nor have they a financier who would know how to make classes, but not with the working classes. There is, however, at this moment, a disposition to consider whether the poorer middle classes may not be worth conciliating, and to them the remission of the income tax would be the greatest of all boons.—*London Corr. N. Y. Tribune.*

GROCERIES, WINES AND SPIRITS.—Attention is directed to the advertisement of Mr. John Boyd, who, on Thursday next, will open a store for the sale of these commodities on Johnson street adjoining Patrick's Corner *

MESSRS. BROWN AND WHITE, dry goods dealers, beg to inform their friends and customers that they have removed from the premises on Fort street lately occupied by them, to the store just vacated by Mr. J. Finlayson, Grocer, on Government street adjoining Masonic Hall. *

DAVID GREEN, on Government street,
Announces that he can't be beat.
Vests, coats and pants he will sell cheap,
In all styles and sizes he has a heap.
Depart at once his benefits to reap.

Go to Cassiar mines is the cry,
Resolve at GREEN'S your clothes to buy;
Every class can be suited there,
Each article warranted not to tear.
Now, go while you have the cash to spare.

A. GILMORE has just received a large assortment of Canadian and English Custom-made Clothing, which he will sell at Reduced Prices; therefore the public are invited to call and select for themselves and make their purchases before going elsewhere. * *

A Disabling Disease.

No disease which does not confine a man to his bed so completely unfits him for business as dyspepsia. When the stomach is foul, the brain is always muddy and confused, and as the cares and anxieties of life are a sufficient burden for the organ of thought to bear, without being tormented by the miseries born of indigestion, it is highly desirable for the brain's sake, as well as for the sake of every other portion of the system that the disordered stomach should be restored with the utmost despatch to a healthy vigorous condition. This object can always be accomplished by a course of Hostetter's Stomach Bitters, the purest and best of vegetable specifics, which evacuates the morbid humors through the bowels, rouses and tones the torpid stomach and regulates the liver, imparts firmness to the nerves and clears the sensorium of its mental cobwebs. Persons subject to attacks of indigestion, bilious headache, irregularity of the bowels, sickness at the stomach, or "the blues," should take the Bitters once or twice a day throughout the present season.]

C. Francis Barnard, M. D.
SURGEON DENTIST.

DR. BARNARD HAS HAD FOR several months the "Perkins Hyatt" or "Celluloid Base," the newest and latest material adapted to the mounting of whole sets of teeth; he is also using "Whalebone-Rubber," which is rapidly supplanting, for single dentures or partial sets the best vulcanites of the last 25 years.

We cheerfully add Dr. B's card to our columns, convinced that his good taste and judgment, united to natural skill and ingenuity, aided by an extensive practice of upwards of thirty years, render his services more valuable and reliable than those of any other Dentist on the Sound, Coast or Island.

Dr. B's large experience may be readily seen in the happy and natural expression given his patients by his life-like insertion of artificial Teeth.

The public may rest assured of patience, gentleness and undivided attention while under the Dr's hands, and that he will ever strive to be foremost in adopting helps and hints touching his own interest and that of his patrons.

Medical.

FRENCH MEDICINES

Prepared by

GRIMAULT & CO.,

Pharmaceutical Chemists,

8, Rue Vivienne,

PARIS.

OF ALL THE MEDICINES OFFERED TO the public for many years past, none have met with such favorable reception, or as been so generally approved by the Medical Profession as those prepared by Messrs. Grimault & Co

The model Laboratories of this firm, situated at Neuilly-sur-Seine, and managed by Dr. Leconte, Professor in the Faculty of Medicine, ex-Pharmacist of the Hospitals of Paris, and formerly Assistant to Dr. Claude Bernard, Professor of Physiology at the College of France, offers guarantees to be found in no other establishment.

Among other preparations we may specially mention:—

Leras' Liquid Phosphate of Iron.

It contains the constitutive elements of the bones and of the blood, add is the most rational of all chalybeates. It may be prescribed for the most delicate young females whose development has been retarded; for women suffering from stomach complaints, anæmia; for pale and sickly children deprived of appetite; and as its principal action is to restore to impoverished blood the iron in which it is deficient, and to the bones the phosphate that forms their base, it is recommended for debilitated persons whether their debility proceeds from disease or from any other cause. Its use is always attended with surprising results.

GRIMAULT & CO.'s
Syrup of Hypophosphite of Lime.

An excellent remedy for all affections of the chest, it relieves coughs, effectually prevents nocturnal perspiration and restors the patient's strength. This syrup is the only one which, ever since 1857, has invariably been attended with satisfactory results—a fact due to the purity of the hypophosphite employed. Be sure to observe that it bears the signature of Grimault & Co.

GRIMAULT & CO.'s
Iodized Syrup of Horse Radish.

Considered the best substitute for Cod-liver Oil. It has been ascertained by experiments made in the principal Hospitals of Paris that this syrup has always produced results superior to those obtained from the above-mentioned Oil, which patients find so disagreeable to take.

Not a single instance can be adduced in which pale lymphatic children, subject to swelling of the glands, to eruption of the skin, of the head or the face, or other inconveniences of a weak constitution, who have taken this syrup without deriving signal benefit from its use.

GRIMAULT & CO.'s
Pepsine Digestive Powders, Pills, Elixir and Wine.

Pepsine is one of the most recent scientific discoveries in therapeutics. Acting chiefly on the organs of digestion, it possesses the property of effecting digestion by its innate virtues. It removes all the inconvenience of difficult digestion and even prevents the nausea to which pregnant women are liable.

The researches on pepsine made at the College of France by Dr. Leconte, in conjunction with Professor Claude Bernard, must secure the preference for our preparation of pepsine.

Lagasse's Syrup and Paste of Sea Pine Sap.

Employed with success in the treatment of catarrh, bronchitis, hæmoptysis, and the different stages of phthisis.

It cures spitting of blood, the most obstinate coughs, alteration of the voice, oppression and pains of the chest, the nocturnal paroxysms of asthmatics, and modifies the more serious lesions of the respiratory organs.

GRIMAULT & Co.'s
Matico Injection and Capsules.

Composed of the essence extracted from the plant so called, they have been constantly employed with the most brilliant success in a certain class of contagious diseases.

They combine extraordinary efficacy with the advantage of never causing nausea, eructations, or pains in the stomach, as do the gelatinous capsules which contain Balsam of Copahu in a liquid state; or the strictures that result from the use of injections having a metallic basis.

GRIMAULT & Co.'s
Pectora Lozenges of Lactucarium and Cherry Laurel.

This delicious comfit, containing the two most soothing substances of the whole Materia Medica is employed with success against coughs, influenza, bronchitis, hooping coughs, &c.

Asthma. Asthma.
GRIMAULT & Co.'s
Indian Cigarettes of Cannabis Indica.

All the means hitherto employed to relieve Asthma have been only palliatives in varied forms, based on belladona, stramonium, nicotiana, or opium. Recent experiments made in the Paris Hospitals have proved that our Cigarettes made of the extract of Indian Hemp possess remarkable virtues against this complaint, as well as against nervous coughs, chronic laryngitis, hoarseness, loss of voice, facial neuralgia, and insomnia.

Grimault & Co.'s Guarana.

A single powder of this vegetable production is sufficient to cure instantly the most violent sick headache. It is the most valuable remedy against diarrhœa, dysentery, and all disorders proceeding from derangement of the stomach or bowels. This powder is indispensable for all families, and far more efficacious than opium or sub-nitrate of bismuth.

GRIMAULT & Co.'s
Vermifuge Santonime Dragees.

Under the form of a comfit, equally pleasing to the taste and to the eye, they supply mothers with an easy and perfectly safe means of relieving their young children from intestinal worms, which are often the cause of convulsions.

Paleness of the skin and frequent irritation of the nose are nearly always the certain signs of the presence of worms. Preference ought always to be given in such cases to these dragees, the composition of which is well known and always the same, instead of those which are called vegetable, but often contain calomel or other forms of mercury.

GRIMAULT & Co.'s
Newfoundland Cod Liver Oil, and Cod Liver Oil, with Iodide of Iron.

The Cod-liver Oil which we offer to the profession and the public is especially extracted for our house in Newfoundland, and we can therefore guarantee its altogether exceptional purity.

Our Newfoundland Oil with Iodide of Iron, which contains in every tablespoonful two grains of pure Iodide of Iron, is a valuable resource in lymphatic and scrofulous affections, as also in consumption.

Ford & Co., the publishers, who will wait upon the citizens and show the **Supurb French Oleograph** entitled "Little Runaway and her Pets," the premium presented to every subscriber. The picture is a fac simile of a $1200 oil painting by Lubrichon, the latest and most brilliant work of that great French painter au28

DIAMOND SPECTACLES

THESE SPECTACLES ARE MANUFACTURed from "Minute Crystal Pebbles" melted together and are called **Diamond** on account of their hardness and brilliancy.

It is well known that spectacles cut from Brazilian or Scotch pebbles are very injurious to the eye because of their polarizing light.

Having been tested with the polariscope, the diamond lenses have been found to admit 15 per cent. less heated rays than any other pebble.

They are ground with great scientific accuracy, are free from chromatic aberrations, and produce a brightness and distinctness of vision not before attained in spectacles.

Manufactured by the Spencer Optical Manufacturing Company.

For sale by responsible agents throughout the Union.

J. L. Jungerman,
JEWELER AND OPTICIAN, IS SOLE AGENT FOR VICTORIA, V. I.,

From whom they can only be obtained. No Pedlars employed.

The great demand for these spectacles has induced unscrupulous dealers to palm off an inferior and spurious article for the Diamond. Great care should be taken to see that the trade mark <> (which is protected by American Letters Patent), is stamped on every pair. se6
